- *Balance dependent upon 145 paying participants
- **Surcharge of \$222 per time under 145 bus seats
- ***There is a no buffer in case of unforeseen costs
- ****Prices are subject to change
- *****Difference, if any, made up by Boosters

POLICIES

Tour costs above are meant only to show how the final number was derived. Current prices could change if the number of participants change and/or travel plans or inclusions are changed.

None of the costs above are dependent upon numbers **EXCEPT** bus/hotel costs. Bus cost is the total charged divided by the number of participants. With 145 members, a bus seat for the trip will cost \$222 each and is based on the minimum of 145 participants. A lower participant level will result in empty seat charges at \$222 per seat.

Hotel rooms are also divided among total cost of stay divided by 145 participants. But, rooming reservations can change (unlike the total amount of bus seats) and the number of rooms needed will change in respect to the participants. It is divided this way so the boosters will not need to cover the cost of doubles and triples caused by odd number of female/male students and chaperone doubles as in years past.

The Band Boosters, Directors, and staff are not responsible or liable for actions/defaults of suppliers of services and/or anything not directly under our control
